

# Facing Email Outage Problem in Bigpond mail Account? Learn What You Can Do To Fix The Issue!

The graphic features the Bigpond Webmail logo in the top left corner. A large speech bubble contains the text: "Facing Email Outage Problem in Bigpond mail Account? Learn What You Can Do To Fix The Issue!". Below this, a yellow button with the text "CALL NOW" is positioned above a blue button with the phone number "+61-872-000-111". To the right of the speech bubble is a photograph of a man and a woman in business attire looking at a laptop screen.

Bigpond has emerged as one of the most reputed and best email service providers all over the world. The work with its services has now become more convenient and efficient.

Even being the most reliable email service, Bigpond too has started facing issues which is also a matter of concern for its users as it would act as a hindrance in the regular work. This blog has been curated to solve your issues regarding the Bigpond Email Outage Issue.

## What happens during an outage?

Before moving ahead, let us take a look at what would happen during an email outage in Bigpond.

- You will face issues in signing up for the Bigpond email setup.
- If you are already signed in you will have issues in working on it.
- You will have difficulty sending messages.
- You will not be able to receive any of the messages.
- You will face issues in receiving the email notifications.

## What steps should be taken to resolve the outage?

These are just some of the issues that you might face, even though the Bigpond account would not work at all during the outage, as it would immediately stop working. In such a case let's look at the possibilities by which we can do in order to fix it:

- First, check whether there is a Bigpond email outage or not in some cases it's the neighborhood connection issues that lead to problems.
- So, there might be a chance that the issue is not because of an outage in the Bigpond in case you find out that there is an outage, you'll have to wait until everything gets better.
- Always keep yourself updated with Outage conditions before starting the work. It would reduce the possibility of any work loss.
- Wait until the situations get better if even after a long period of time you're not able to access your account try reaching out to technicians to resolve the issue.
- Bigpond webmail support will also be there in order to provide you assistance 24\*7 you can connect to them at any given point to take help during such issues.

## **Disclaimer**

Now that you have seen the things that you must do during an outage from Bigpond hope this will help you up to some point. But still, if you are facing trouble in anything regarding the email services then rather than wandering from one site to another in order to resolve issues yourself simply get in touch with the Bigmail support services team and get your queries resolved on time without losing any work or wasting time. It is absolutely free to reach out to them over a call they would ensure to leave you with only solutions.
